The Linear Collection

The Linear system consists of a unique range of aluminium frame profiles, components and accessories designed to offer the most cost-effective, flexible display solutions in the market. Kits are made as portable as possible using specially designed rigid, wheeled cases that hold components safely in place during transportation.

Linear display kits are ideal for all types of promotion, exhibition or semi-permanent display. As the kits are modular, they can be added to and reconfigured for multiple-use with the addition of a choice of accessories. Together with a choice of graphic fixing options, Linear systems can be created to fit the design and graphic media of your choice.
